

# Teacher Practice Exemption Application

---

All teachers in their Summative (evaluation) Year must meet the expectations in BOTH the Teacher Practice and the Professional Growth Requirement to be considered for movement in the School District of Greenfield compensation model. However, there is a provision that allows teachers to apply for an exemption from the Teacher Practice Requirement due to the following reasons:

- In their first or second years of teaching
- Have a significantly different teaching assignment, as compared to the previous school year

A teacher who believes they qualify, MUST fill out the form below and submit it to the building principal by September 30 in order to be considered for this exemption.
